

JOHN RUSSEL REGALADO

Aspiring software and web developer currently pursuing a Bachelor's degree in Information Systems. With strong programming skills in Python, C#, and experience in web development using PHP, HTML, CSS, and Laravel, I am eager to apply my knowledge and contribute to a dynamic development team.

EXPERIENCE

2024

FREELANCE PROGRAMMER & WEB DESIGNER

- Designed and developed websites for clients, including both front-end and back-end work.
- Focused primarily on front-end development using HTML, CSS, and JavaScript.
- Integrated dynamic features with PHP and Laravel on the back-end.

2023

PROGRAMMING CHALLENGES

- Actively participated in online programming challenges to enhance coding and problem-solving skills.
- Focused on solving algorithmic and data structure problems in Python and C#.
- Competed in various online platforms, improving both speed and efficiency in coding tasks.
